Tenofovir Disoproxil 245mg Tablets

Part A

Prescriber Criteria: Consultant Gastroenterologist
Consultant Infectious Diseases Physician

Outpatient and Inpatient use:

1. Hepatitis B

- Treatment of chronic hepatitis B infection with:
  - compensated liver disease (with evidence of viral replication, and histologically documented active liver inflammation or fibrosis), or
  - decompensated liver disease
- Patients at risk of hepatitis B virus reactivation due to immunosuppressive therapy.

Duration of Approval:
1 year

Part B

Prescriber Criteria: Consultant Gastroenterologist
Consultant Infectious Diseases Physician

Outpatient and Inpatient use:

1. HIV/AIDS and HIV Related Diseases

Treatment of HIV-1 infected adults in combination with other anti-retroviral agents. Tenofovir will be used in patients who either:

- are resistant to other anti-retrovirals
- develop adverse effects to other anti-retroviral agents
- in whom other anti-retroviral agents are contraindicated e.g. in hepatitis B co-infection

Duration of Approval:
3 years
